

FINAL CONFERENCE — March 27, 2015

Life+ Project UNIZEO: Urea-based nitrogenous fertilizers coated with zeolite: reducing pollution of surface water, aquifers and air

PROGRAMME

10.00-10.15

Participant registration

10.15-10.30

Presentation Unizeo project

(Simone Salvetti - Minerali Industriali)

10.30-11.00

Presentation Minerali Industriali

(Eugenio Salvaia- Minerali Industriali)

Presentation Medilabor di Odore Dr.

Carlo

(Carlo Odore - Medilabor)

11.00-11.20

The experimental fertilizer: product features

(Gianni Marchello - consultant for Minerali Industriali)

11.20-11.50

Desing of agronomic tests and presentation of results

(Stefano Monaco - DISAFA University of Torino)

11.50-12.15

The field activities: soils, crops, farms

(Carlo Odore - Medilabor)

12.15-12.45

Innovative and traditional techniques for soil and yield improvement: examples from the LIFE projects "Crops for Better Soil" and "Operation CO2" in Spain

(Egbert Sonneveld)

Conclusion of the morning session, lunch at the Scuole Salesiane Lombriasco with round table for discussion and closure of the session.

**Scuole Salesiane Lombriasco
Via San Giovanni Bosco , 7—Lombriasco (TO)**
