Deliverable Action 4: Pictures of the experimentation sites

Autore: Medilabor di Odore Dott. Carlo

Data: 15/10/2013

This deliverable presents a set of pictures taken at the experimentation plots at different moments: some during application of the zeolite-coated urea grains; some during the period of growth of the crops.

Further pictures will be supplied in occasion of the production of the first monitoring report of Action 6, foreseen in the first months of 2014.

Pictures of agricultural plots

Pictures at golf yards
